MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDIAN DREDGING - OUTLOOK & POLICY GUIDELINES

1. India has an extensive coastline of approximately 7,500 kilometers. There are 12 major ports under the administrative control of the Ministry of Shipping, Road Transport and Highways (MoSRTTH), approximately 180 non-major ports under the administrative control of the Government of India (GOI), State Governments and private ports. As per the 11th Plan Working Report, Shipping plays an important role in the transport sector of India's economy. Approximately, 95% of the Country's Exim merchandise trade by volume (70% in terms of value) is moved by sea. India has one of the largest merchant shipping fleet among the developing countries and is ranked 20th in the world. Dredging both capital and maintenance plays an important role in taking up the challenges of increased vessels sizes and handling operations of the Ports. With the developments that have taken place in the Port Sector during the recent past, the requirement of dredging has also increased manifold. The expenditure on dredging is about 20% of the operating expenditure of Major Ports for the year 2005-06. The total achievements of capital dredging in Major Ports during the 10th plan period is expected to be 15.20 million Cu.M against the projection of 138.08 million Cu.M. resulting in a shortfall of about 89% which is mainly because of non-implementation of projects. During the 11th Plan period, the total Capital dredging requirement of Major Ports and Sethusamudram Shipchannel Project is estimated to be 298.28 million Cu.M. The requirement for maintenance dredging is projected to be 380.06 million Cu.M. The total dredging requirement during the 11th Plan period as estimated by state Ports and Fishing Harbours is 401.07 million Cu.M which include 33.89 Cu.M of maintenance dredging.
2. While formulating the National Maritime Development Programme (NMDP) around 25 major projects with a cost of Rs.6304 crore have been identified by Major Ports, broadly for deepening of channels and enhancing the available draft at berths during the 11th Plan period.
3. The total capacity of Port dredgers during the 11th Plan would be 29.73 M.Cu.M against the requirement for maintenance dredging of 380.06 M.Cu.M. This is to be met by DCI as well as other agencies. DCI dredging capacity by end of 10th plan period was 79.85 M.Cu.M. With the expansion plan contemplated, the capacity is expected to increase to 168 M.Cu.M by end of 11th Plan. The proposed outlay of DCI including spill over schemes of 10th Plan is about Rs.8142 crore. To meet the increased dredging requirement, it is proposed to form a new dredging organisation as an SPV between Shipping Corporation of India and Mumbai Port Trust.
4. Department of Shipping has issued the revised policy guidelines w.e.f 01/04/2007 for a period of 3 years which are as under:-
 - (i) All major ports shall invite open competitive bids for dredging works and Indian companies owning Indian flag dredgers, including Dredging Corporation of India (DCI) shall have the right of first refusal if the rate is within 10% of the lowest valid offer. This would apply to both maintenance and capital dredging works with sole exception of the maintenance dredging requirement of Kolkata Port for which separate instructions shall apply.
 - (ii) If more than one company owning Indian flag dredger participates in the tender, the right of first refusal will go to that Indian company which has quoted the lowest rate and is within 10% of the lowest valid offer.
 - (iii) All major ports may strictly adhere to the guidelines issued by the Central Vigilance Commission from time to time for processing the tenders in a transparent manner. Ports may ensure that a prequalification criteria is fixed in advance and should not be very stringent to restrict entry of certain potential Indian bidders. The prequalification conditions should be exhaustive, yet specific. The prescribed conditions should be clearly specified in the bid documents to ensure fair competition and transparency. Detailed instructions in this regard will be issued separately.
 - (iv) The Government of India through Department of Shipping reserves the right to assign, in public interest, any contract for dredging work in any of the major ports to DCI on nomination.
 - (v) Guidelines issued by DG(Shipping), Mumbai from time to time in terms of the relevant provisions of Merchant Shipping Act shall be applicable.

CORPORATE PERFORMANCE

5. Operations

DCI is the largest dredging company in India and has generally operated at close to 100% capacity utilization. The capacity utilization is the ratio of the amount actually dredged by DCI in a year and its derived annual dredging capacity. Annual dredging capacity is derived from a number of parameters, including installed hopper volume, estimated number of days of dredging, location, soil characteristics, number of loads and dumping distance. In 2007-2008, DCI operated at a capacity utilization of approximately 84.82% (based on actual days dredged and other relevant factors). The lower capacity utilization is mainly on account of decrease in the number of dredging days than targeted in respect of some dredgers due to extended dry-dock periods, emergency dry docking and break downs.

7. As on 31st March, 2008, the Company has made a contribution of Rs.24.50 crore towards equity for the Special Purpose Vehicle, Sethusamudram Corporation Limited. As on date the Company has contributed the full amount of Rs.30.00 crore towards equity constituting the share of the Company towards contribution for the Special Purpose Vehicle.

9. OPPORTUNITIES AND THREATS

The Company perceives the following opportunities -

- targeted GDP growth rate of average 9% per annum during 11th Plan which is expected to result, among others, in increase in Port Traffic and Port Capacity during 11th Plan.
- Upcoming capital dredging projects at various Ports in India.
- Upcoming private ports.
- The Sethusamudram Ship Channel Project.
- Increased maintenance dredging requirements consequent to new capital dredging works.
- Growing International Trade volumes – opportunities abroad.

The Company perceives the following threats

- Increasing foreign competition.
- Increasing competition from Indian dredging companies.
- Frequent and expensive repairs to dredgers due to ageing.
- Inadequate dredging capacity.
- Non-availability of experienced and trained technical persons/ floating personnel which is mainly because of the not so attractive pay packages in the public sector.

10. INDIAN DREDGING MARKET OUTLOOK

During the 11th Plan while the consistent maintenance dredging requirements at the major ports are expected to continue, increasing private sector participation in port development and related capital dredging activity is expected. At the same time, the dynamics in the Indian market are rapidly changing. The key changes taking place include changes in customer profile for dredging companies from Government to private sector developers, changes in payment patterns for dredging work from a daily rate basis to quantitative or performance-based methods, the expansion of Indian port capacity and increasing participation of international companies in the Indian dredging market. Other developments include:

- Deeper draught requirements of Indian Ports.
- Tourism development and increasing need for beach nourishment.
- Land reclamation for low lying areas.
- Sethusamudram Ship Channel Project.

DCI's customers include Major Ports under the administrative control of the Ministry of Shipping, Road Transport & Highways (MoSRT&H), non-Major Ports under the administrative control of the Gol and State Governments, private ports, the Indian Navy and shipyards. The Indian dredging market is primarily maintenance dredging-oriented.

11. RISKS AND CONCERNS

- While the procurement action for acquisition of new dredgers have projected a high cost of construction of new dredgers, the emerging competitive market scenario indicates lower rate of returns on the capital expenditure, thus hindering the additions to the capacity and filling the gap between the present capacity with the Company and the growing demand within the Country.
- the inadequate dredging capacity with Company has resulted in chartering-in of dredgers, the expenditure of which, owing to the present market conditions is on the higher side effecting the profitability.

DREDGING CORPORATION OF INDIA LIMITED

DREDGING CORPORATION OF INDIA LIMITED

COMMENTS OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA UNDER SECTION 619 (4) OF THE COMPANIES ACT, 1956 ON THE ACCOUNTS OF DREDGING CORPORATION OF INDIA LIMITED, VISAKHAPATNAM, FOR THE YEAR ENDED 31st MARCH, 2008.

The preparation of financial statements of Dredging Corporation of India Limited, Visakhapatnam for the year ended 31 March 2008 in accordance with the financial reporting framework prescribed under the Companies Act, 1956 is the responsibility of the management of the company. The Statutory Auditor appointed by the Comptroller and Auditor General of India under Section 619(2) of the Companies Act, 1956 is responsible for expressing opinion on these financial statements under Section 227 of the Companies Act, 1956 based on independent audit in accordance with the auditing and assurance standards prescribed by their professional body the Institute of Chartered Accountants of India. This is stated to have been done by them vide their Audit Report dated 20th June 2008.

I on the behalf of the Comptroller and Auditor General of India have conducted a supplementary audit under section 619 (3) (b) of the Companies Act, 1956 of the financial statements of Dredging Corporation of India Limited, Visakhapatnam for the year ended 31 March 2008. This supplementary audit has been carried out independently and is limited primarily to inquiries of the Statutory Auditors and company personnel and a selective examination of some of the accounting records. Based on my supplementary audit I would like to highlight the following significant matters under Section 619(4) of the Companies Act, 1956 which have come to my attention and which in my view are necessary for enabling a better understanding of the financial statements and the related Audit Report.

A. Comments on Profitability

Profit & Loss Account-

Income from Operations (Schedule VIII) -Rs 705.32 Crore

1. The above is overstated by Rs 11.69 crore in respect of the following claims of the company disputed by the customer :
 - i) Hire charges in respect of time utilised for taking bunkers by the dredgers and
 - ii) Charges for mobilisation and demobilisation of the dredgers

As the claims have been disputed by the customer, the revenue recognition should have been postponed as per Accounting Standard-9 prescribed under section 211(3C) of the Companies Act, 1956. This has resulted in overstatement of Sundry debtors (Schedule VI) by Rs 13.61 crore, Current liabilities (Schedule VII) by Rs.1.92 Crore with consequent overstatement of profit for the year by Rs 11.69 crore.

B. Comments on Financial position

Balance sheet-

Application of Funds

Fixed Assets (Schedule IV)

Gross Block – Rs 923.57 Crore

2. The Company had accounted the swap charges paid to hedge the fluctuations of foreign exchange rates in respect of loans taken for procurement of two dredgers as revenue expenditure instead of adjusting to carrying amount of the dredgers as prescribed in Accounting Standard-11. This has resulted in understatement of gross block of Fixed assets by Rs 3.60 crore and Cumulative depreciation by Rs 0.37 crore with consequent understatement of Profit for the year by Rs 3.23 crore.

ANNEXURE TO THE DIRECTOR'S REPORT

MANAGEMENT'S REPLY ON COMMENTS OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA UNDER SECTION 619 (4) OF THE COMPANIES ACT, 1956 ON THE ACCOUNTS OF DREDGING CORPORATION OF INDIA LIMITED, VISAKHAPATNAM, FOR THE YEAR ENDED 31st MARCH, 2008.

**COMMENTS OF COMPTROLLER AND AUDITOR
GENERAL OF INDIA**

MANAGEMENT'S REPLY

A. Comments on Profitability

Profit & Loss Account-

**Income from Operations (Schedule VIII) -Rs 705.32
Crore**

1. The above is overstated by Rs 11.69 crore in respect of the following claims of the company disputed by the customer :

- i) Hire charges in respect of time utilised for taking bunkers by the dredgers and
- ii) Charges for mobilisation and demobilisation of the dredgers

As the claims have been disputed by the customer, the revenue recognition should have been postponed as per Accounting Standard-9 prescribed under section 211(3C) of the Companies Act, 1956. This has resulted in overstatement of Sundry debtors (Schedule VI) by Rs 13.61 crore, Current liabilities (Schedule VII) by Rs.1.92 Crore with consequent overstatement of profit for the year by Rs 11.69 crore.

B. Comments on Financial position

Balance sheet-

Application of Funds

Fixed Assets (Schedule IV)

Gross Block – Rs 923.57 Crore

2. The Company had accounted the swap charges paid to hedge the fluctuations of foreign exchange rates in respect of loans taken for procurement of two dredgers as revenue expenditure instead of adjusting to carrying amount of the dredgers as prescribed in Accounting Standard-11. This has resulted in understatement of gross block of Fixed assets by Rs 3.60 crore and Cumulative depreciation by Rs 0.37 crore with consequent understatement of Profit for the year by Rs 3.23 crore.

The subject bills amounting to Rs 11.69 Crore have been claimed in accordance with the agreement between Dredging Corporation of India Ltd (DCI) & Sethusamudram Corporation Ltd (SCL) and the income is recognised on this basis.

As per the agreement, all the claims made on SCL are subject to adjustment against final rate per Cum to be finalised by the AS & FA Committee constituted by the Ministry. Upon finalisation of rate per Cum by the Committee, necessary adjustments as may be required will be carried out. Reference is invited to Note no 9 (h) of notes forming part of the Accounts. In view of the above, there is neither overstatement of Sundry debtors nor overstatement of profit for the year by Rs 11.69 Crore.

The swap charges were incurred subsequent to commissioning of the asset and was rightly charged off to revenue and which is in line with the revised AS -11.

The asset was commissioned in 2000 and as per the loan agreement, the entire loan will be discharged by August, 2009. Exchange derivative is an independent activity to hedge the risk and do not form part of the procurement cost of the asset. Therefore, capitalising the swap charges at this stage is not warranted.

It is also to be stated that the Company will not have additional foreign exchange liability arising in this regard. Therefore, there cannot be any gain or loss on account of foreign currency fluctuations.

In view of the above, there is neither any understatement of gross block of Fixed assets nor understatement of profit for the year as said in the comment.

As per the opinion, if the spares are of capital nature and purchased subsequent to the acquisition of particular dredger these need to be capitalized and depreciated systematically over the remaining useful life of the particular dredger. In case where the useful life of the particular dredger has been completed, the same is to be charged to Profit & Loss A/c through depreciation.
